REMARKS

Upon reviewing the allowed claims, it was determined that the present amendments should be made to provide proper protection of the invention. Specifically, independent Claims 1, 22 and 32 as allowed unnecessarily include the step of "launching said software application". In view of the cited art, this step is superfluous as it does not add any novelty to the claimed invention.

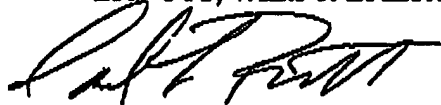

Applicant identified the unnecessary limitation only after reviewing the notice of allowance. It is respectfully requested that the amendment be entered as Claims 1, 22 and 32, as amended, do not raise any additional issues that would require a further search of the prior art.

Thus, issuance of a notice of allowance is respectfully requested. The Examiner is invited to contact the undersigned by telephone if it is believed that such contact would further the examination of the present application.

If there are any additional charges, please charge them to our Deposit Account No. 50-0385.

Respectfully submitted,
